

My name is Danis Lenin Gonzalez. I am 12 years old and I am in the bakery class. I am in 3rd grade at Alfredo Alegria School. I am going to tell you a little bit about me; the center has changed my physical and spiritual life. When I came to the center I did not know how to write or read and now I have improved greatly with the teachers help and their support. Bakery is my favorite class and when I grow up I want to become a great baker. Thank you for this opportunity and GOD bless you.
